

QUESTIONNAIRE FOR TECHNICAL AUDIT OF E-LEARNING SYSTEMS AVAILABLE IN PARTNER ORGANIZATIONS

Настоящият въпросник е разработен въз основа на заложените дейности в Project №: 2022-1-BG01-KA220-HED-000085089 "E-learning tools for Food technology and development education", финансиран от програма Еразъм+. Той има за цел да оцени техническите възможности e-learning платформите в партньорските университети. Чрез провеждането на предлаганата стандартизирана анкета ние ще оценим техническите параметри на платформите и ще преценим възможностите на всяка една от партньорските организации за реализирането на проекта.

Анализът на събраните данни ще бъде проведен на срещата през месец Юни в Сарагоса, Испания.

Въпросникът ще бъде използван за оценка и на техническите параметри на e-learning платформите и в други университети, реализиращи дейности по програма Еразъм+ (асоциирани партньори към настоящия проект).

Предварително благодарим за участието и отделеното време.

The present questionnaire was developed based on the planned activities in Project No: 2022-1-BG01-KA220-HED-000085089 "E-learning tools for Food technology and development education", financed by the Erasmus+ program. It aims to evaluate the technical capabilities of the e-learning platforms in the partner universities. By conducting the proposed standardized survey, we will evaluate the technical parameters of the platforms and assess the capabilities of each of the partner organizations for the implementation of the project.

The analysis of the collected data will be conducted at the June meeting in Zaragoza, Spain.

The questionnaire will be used to evaluate the technical parameters of the e-learning platforms and in other universities implementing activities under the Erasmus+ program (associated partners to the present project).

Thank you in advance for your participation and time.

** Indicates required question*

1. Email *

2. Please indicate the name of your university? *

3. Please enter your name and position? *

4. Please indicate how many organizational units (faculties; departments; institutes) your university has? *

5. **What platform do you use for your e-learning system? (more than one answer is possible)** *

Check all that apply.

Google workspace and classroom

Microsoft teams 365

Moodle

Thinkific

Coursera

LinkedIn Learning

Skillshare

edX

OpenLearning

Udemy

Treehouse

MasterClass

Khan Academy

Other: _____

6. Where is the system hosted? *

Mark only one oval.

- own (local) server
- Colocation of own server
- Rented server
- Other: _____

7. What types of documents can be uploaded to the system? (more than one answer is possible) *

Check all that apply.

- Text documents, presentation, tables and other (*.doc; *.docx; *.pdf; *.ppt, *.pptx, *.xls, *.xlsx, etc)
- Video files from lectures/exercises
- Audio files
- Graphical files (pictures, paintings, etc.)
- Other: _____

8. Is there a limit to the size of files that can be uploaded to the system? *

Mark only one oval.

- No
- Yes, up to 1 MB
- Yes, up to 10 MB
- Yes, up to 100 MB
- Yes, up to 1000 MB

9. **Has your system one or more of the following cloud functionalities/services? ***
(more than one answer is possible)

Check all that apply.

- Share documents
- Send/receive emails
- Access Controls/Permissions
- Manage calendar
- Integrated secure video chats
- Other: _____

10. **What is the volume of data that is currently available in the system? (please specify the size of data) ***

11. **How many users are currently using the system? ***

12. **How do users access/register? Please describe how user access/registration is implemented ***

13. **Is it possible to register external (to your institution) users?** No; Yes; (if YES, * please describe the procedure for registering these users);

14. **What is the access hierarchy in the platform you are using?** *
Please briefly describe the hierarchy of access to the platform (global administrator, local administrators; users and others)

15. **Is automatic system back-up possible?** No; Yes (if the answer is YES, please * describe how it is implemented)

16. **Are the materials backed up in a system and how often?** No; Yes (if the answer * is YES, please describe the period during which backup copies of the system are made);

17. **Do you use the system for exams? No; Yes (if the answer is YES, please describe what types of exams you carry out in the system);** *

18. **How do you control the exams in the system? Please describe how ensures that students do not use materials and other aids during the exam** *

19. **What types of exams can be conducted in the system? (more than one answer is possible)** *

Check all that apply.

- Tests
- Developing descriptive questions
- Development of Case Study
- Other: _____

20. **What services can be integrated with a university management system? (more than one answer is possible)** *

Check all that apply.

- G-suite integration
- Microsoft integration
- AI (like Chat GPT, Midjourney, DALL-E)
- Other: _____
